RECOMMENDATIONS

"Jose is one of the most talented designers I have ever had the pleasure to work alongside. He is highly capable and would excel in a senior role. Anyone who decides to bring Jose into their team will gain a highly capable and flexible designer who is also excellent at understanding the needs of stakeholders and working to tight deadlines. Jose always goes the extra mile in his work. Whether he is designing a website or creating graphics or videos you can guarantee the end result will be spectacular. My advice to anyone hiring right now is not to let him slip through your radar. Jose is an asset you will not regret bringing into your team."

Louise Cousins

Head of software development in
Global University Systems

I have had the great pleasure to work with Jose in 3 of my 2020 website projects. He worked with me to redesign the London School of Business & Finance websites in the UK and Singapore and also The London Academy of Trading website.

For each of the projects, Jose Manuel was extremely creative - always delivering as per the brief. He also loved to come back with new ideas he had discussed with the developer's team to make the designs even more powerful and I really liked that! It's good to have someone in your team that is always giving that little extra - even when you don't ask. Jose is very creative and a rounder designer - with skills in UI, UX, and video editing.

To top things up, he's amazing in a personal capacity. He's approachable, knows how to communicate and a good listener! I wouldn't hesitate to recommend Jose and I hope our paths cross again in the future!

Denisse Diaz

Marketing Director London School
of Business and Finance
